

# DALLAS NORTH TOLLWAY IMPROVEMENT PROJECTS

Harvest Hill Road to Interstate 35E

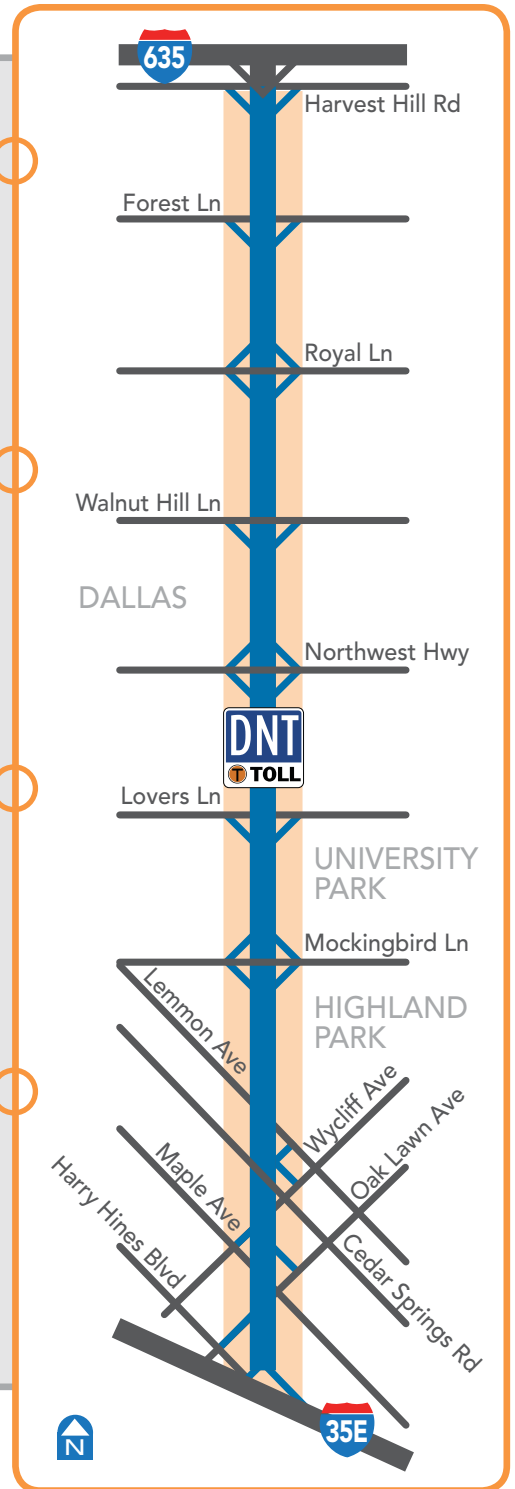

- Project begins mid-April 2017.
- DNT neighbors and customers should know that the work area will move periodically.

Improvements include replacing the tollway's center barrier, pavement and pavement markings.

These improvements are part of North Texas Tollway Authority's continuing efforts towards maintaining safe, reliable and quality roads that our customers expect.

# IMPROVEMENTS COMING SOON ON SOUTH END OF THE DALLAS NORTH TOLLWAY

The Dallas North Tollway (DNT) is getting a facelift starting in mid-April.

This project will focus on improving the driving experience and safety on the DNT between Harvest Hill Road and Interstate 35E. Specifically, North Texas Tollway Authority will be replacing the tollway's center barrier, pavement and pavement markings.

**Important things for our neighbors to know:**

- This is proactive, planned maintenance to ensure a safe, reliable and quality road that drivers expect on the Dallas North Tollway.
- To minimize traffic impacts, most of the improvement work will be conducted during off-peak hours at night and on some weekends. There will be nightly lane closures to perform work safely; these closures will be done under the guidance of local law enforcement.
- Project details and scheduling are being finalized, and we will keep you apprised of project specifics and timing as they become available.
